ORDERED TO STOP.

Enrollment of the Cherokees is Held up by the Secretary.

After enrolling over 200 Cherokees on the final roll of citizenship of the Cherokee nation at Muskogee yesterday, the Dawes commission received a telegram from the secretary of the interior ordering a halt in the enrollment until July 9, when the work will begin again at Fairland.

Dr. Emmett Starr, of Claremore, who came up from Muskogee this morning, brings this information. He said the telegram from the secretary to the Dawes commission ordering the work of enrollment to stop came late yesterday afternoon and that its meaning could not be ascertained. He said however, that the impression prevailed that there was a "nigger in the woodpile" at Washington and that the holdup in the enrollment program was probably for the purpose of letting in rejected claimants provided for in the Curtis amendments to the late Cherokee agreement.

Dr. Starr said all enrollment clerks and officers were ordered from service until July 9, when they are to report for duty at Fairland.

The mysterious hold-up and change in the enrollment program will necessitate the making of new dates for Bennett, Illinois Station, Talequah, Rose, Spavinaw and Grove, at which points the commission had dates before reaching Fairland. The dates from Fairland on may not be changed. —Wagoner Sayings.
